Daybed

Cuscino . Cushion

---

Struttura in metallo verniciato, garantita 10 anni. Imbottitura in schiuma poliuretana a quote differenziate e rivestita in tessuto protettivo accoppiato. Cuscini volanti in poliuretano e dacron; bottoni in madreperla. Piedi in legno massello di frassino tinto noce; antiscivolo in materiale termoplastico neutro. Rivestimento in tessuto oppure pelle. Il progetto privilegia colori e materiali naturali come il cotone, il lino, la canapa, la lana. Svestibilità totale. Con l'uso la piattaforma della seduta assumerà un aspetto più morbido e vissuto. Quindi il presentarsi di una leggera ondulazione dell'abito è da considerare assolutamente normale.

---

Frame in painted metal, guaranteed for 10 years. Polyurethane foam padding in different densities, upholstered with a two-layer protective fabric. Loose cushions in polyurethane and dacron; mother-of-pearl buttons. Feet in solid ash in a walnut stain; neutral thermoplastic non-slip glides. Upholstered in fabric or leather.

For this project, natural colours and materials such as cotton, linen, hemp, and wool have been used. Fully removable covers. With use the seating will become softer and more "lived-in"; therefore a slight wrinkling of the covering is perfectly normal.
